DUROLLA E/W TOILET ROLL DISPENSER MODEL 230B

Functional design and washroom enhancement

Easy to Use

No moving parts to malfunction. The empty core is simply ejected by moving the new roll into place.

Reduces Servicing Costs

The two roll reserve (kept clean and secure) reduces time spent on ensuring that adequate supplies of tissue are available. The slotted front indicates at a glance the need for servicing.

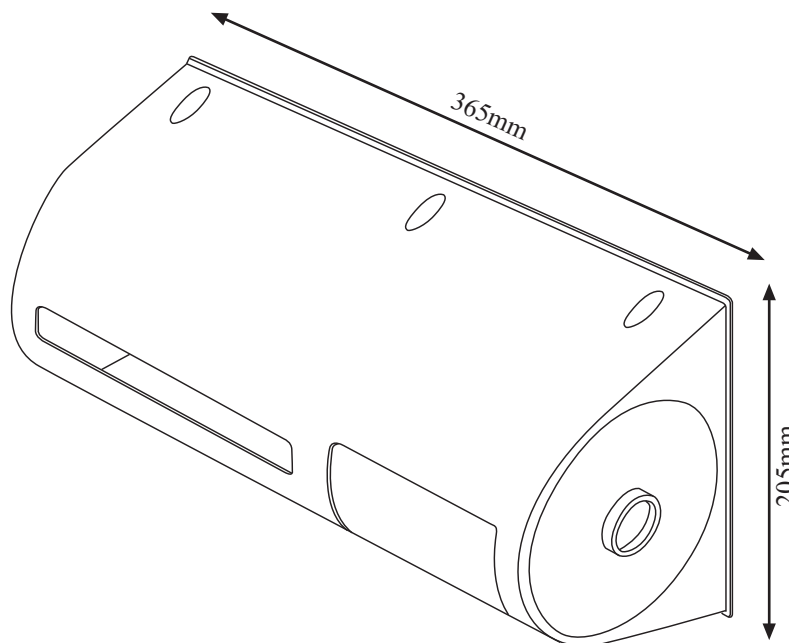

Reduces Vandalism and Pilferage

Manufactured from high quality resins. The lockable cabinet eliminates pilferage and unsightly rolls lying around the wash room. Construction and simple design features ensure the maximum security against vandalism.

Roll Size Accommodation

The dispenser has been designed to accommodate roll sizes up to 130mm (5.12") in diameter.

In special cases a custom core size will provide exclusive use for your tissue
